Re: Recommendation for Nancy Bhargava

Good Afternoon,

I am writing to recommend Nancy Bhargava, who is applying for a position in your unit.

I met Nancy when we were looking for a student work for a media project for engagement and outreach.

Nancy is working with Professor Ellie Buxton (UIS CSC) to use some of the most advanced LLMs and Generative AI models to develop a recommendation system for the UIS Performing Arts Center.

I am really impressed by her production experience in digital media. Nancy was a Product Developer at Comviva, India (2022-23). I watched some of her media projects and they are awesome! She has the technical skills to get the work done, and the communication skills to get the message across to stakeholders.

I am pleased to give Nancy my highest recommendation for this position. She will be an excellent addition to your team, and I am confident that she will make significant contributions to your unit. I strongly encourage you to consider her application.

Sincerely,

Hei-Chi Chan

Associate Prof.

Mathematical Sciences and Phil Department

University of Illinois Springfield
